

The South Central Illinois Continuum of Care (SCICoC) is comprised of 18 counties. Formed in 1997 to identify successful strategies in ending homelessness, the SCICoC garners the expertise of service providers and other community members to maximize the fundamental components of:

- Referrals
- Prevention
- Outreach/Assessment
- Rapid Re-Housing
- Emergency Shelter
- Transitional Housing
- Permanent Housing
- Permanent Supportive Housing
- Supportive Services

Membership in the South Central Illinois Continuum of Care requires no fees and participation of any group, agency, business, faith-based organization or individual is encouraged.

MISSION:

To promote the goal of ending homelessness; provide support for efforts to quickly rehouse homeless individuals and families while minimizing the trauma and dislocation caused. To promote access to and effective utilization of mainstream programs, and optimize self sufficiency among those experiencing homelessness.

The South Central Illinois Continuum of Care is committed to furthering fair housing by promoting fair and equal housing opportunities for all individuals.

The goals of the SCICoC are:

- ◆ To develop a more comprehensive and understood method of referral among partners to assure dignified and efficient response to requests for service by the homeless.
- ◆ To further scrutinize the Continuum of Care, gaining a better understanding of needs and gaps in service, and soliciting projects to address unmet priorities.
- ◆ To emphasize longer-term needs of homeless individuals and families, focusing resources on root causes (rather than just presenting issues), and on development toward greater levels of self-sufficiency.
- ◆ To address the need for affordable housing through the development of affordable housing units and through full utilization of current inventory.

SERVING HOMELESS POPULATIONS IN:

- ◆ CALHOUN
- ◆ CHRISTIAN
- ◆ CLARK
- ◆ CLAY
- ◆ COLES
- ◆ CRAWFORD
